Hi Sarah, Geoff. Even though I'll be on leave, I need to have this call. Sarah, can we please use your conference line?

Sarah, you need to contact Watergen about a CRADA. We also need a Materials Transfer Agreement so Watergen can ship an atmospheric water generator to the Lab. Jay Garland will be talking to them next week. I will try to get these documents into some kind of usable draft form today, tonight, over the weekend.

Here is Watergen's contact info. That's all I have. From an earlier email.

"Water Gen's President is Yehuda Kaploun. His number is 917 576 1122. Thanks"

I'm out of the office Monday thru Wednesday. After our call, I'll likely check emails again Weds afternoon.

Have a nice weekend!
